

VTech® KidiZoom® PrintCam™ and LeapFrog® Choppin' Fun Learning Pot™ Named to *The Toy Insider's* Hot 20 List of Hottest Holiday Toys

Eight Additional VTech and LeapFrog Products Also Featured in Holiday Gift Guide

CHICAGO, September 28, 2021 /PRNewswire/ VTech® and LeapFrog® announced today that ten products have been selected for *The Toy Insider's* 16th annual holiday gift guide, a trusted go-to resource for parents and gift-givers. VTech's KidiZoom® PrintCam™ and LeapFrog's Choppin' Fun Learning Pot™ were named as part of the coveted Hot 20 list, highlighting the top toys children will be asking for this holiday season. The holiday gift guide also features four additional VTech products and four additional LeapFrog products.

"*The Toy Insider* holiday gift guide is always a great snapshot of what will be some of our most popular VTech and LeapFrog toys," said Andy Keimach, President, VTech Electronics North America. "Whether parents are looking for the coolest tech, eco-friendly gifts or learning tools, our fun and engaging toys are sure to bring joy to every child's holiday season."

VTech's KidiZoom PrintCam is a kid-friendly, age-appropriate digital camera that lets kids preview their photos on a color screen and instantly print regular or panoramic photos in black and white. Using cost-effective thermal paper, kids can also print games, and design and print their own greeting cards, play money, comic strips and more. There is a flip-up lens for selfies and three games to play too. Photos and videos can also be uploaded under adult supervision via the included USB cable. Additional VTech products featured in *The Toy Insider* gift guide include the KidiZoom® Smartwatch DX3, Marble Rush Ultimate Set™, Sort & Recycle Ride-On Truck™ and KidiGo™ Basketball Hoop.

LeapFrog's Choppin' Fun Learning Pot is an interactive cooking pot that comes with snap-apart veggies, utensils and a cutting board that all store in or on the pot. Kids can follow step-by-step recipes, chop the food and set the temperature, then watch the pot "boil." Hear the pot respond with encouraging phrases and realistic cooking sounds, count to 10 and talk about colors as kids prepare the recipes. Additional LeapFrog products named as top holiday toys include the Count-Along Basket & Scanner™, LeapLand Adventures™, On-the-Go Story Pal™ and Touch & Learn Nature ABC Board™.

"We can always count on VTech and LeapFrog to deliver fun, engaging toys that keep kids busy playing — and learning! — for hours at a time," said Jackie Breyer, publisher of the *Toy Insider*. "One of the biggest factors we look for in educational toys, especially for younger kids, is play value, and this is where VTech and LeapFrog excel. The Choppin' Fun Learning Pot inspires imaginative play that kids will come back to over and over again. The KidiZoom PrintCam incorporates intuitive technology that allows kids as young as age 4 to get creative while engaging with their friends and family. All of these elements are crucial to childhood development, and are woven in seamlessly so kids don't even realize they're learning."

About VTech®

VTech is a world leader in age-appropriate and developmental stage-based electronic learning products for children. As a pioneer in the learning toy category, VTech develops high-quality, innovative educational products that enrich children's development and make learning fun. With a rich 40-year history, VTech has not only established itself as a learning authority but also consistently remains at the forefront of innovation with multiple award-winning products, including prestigious Toy of the Year (TOTY) Award winners. The company also has a broad range of award-winning infant, toddler and preschool products available in 28 different languages worldwide, with more than 100 new products introduced every year. In order to further strengthen VTech's position as a learning authority, new products are developed with critical insights from a dedicated team of in-house learning experts.

VTech Electronics North America, L.L.C. is based in Arlington Heights, Illinois. VTech Electronics Limited is headquartered in Hong Kong with distribution globally.
