## Ways to Play

Below are ideas to inspire play.

### 1. Label and Find

Teach children how to describe objects and recognize each object's unique features. Direct them to find specific turtles based on different descriptors, for example:

*Find the turtle with the triangles on it.*

*Find the purple turtle.*

*Find a turtle that looks happy.*

### 2. Stack and Nest

Help children develop hand-eye coordination by directing them to stack the turtles into a tower or to nest them inside one another. This can also help them to strengthen their fine and gross motor skills as they grasp and move the turtles around. For an added challenge, prompt them to pull the stacked or nested turtles without knocking any over.

### 3. Compare Sizes

With six uniquely sized turtles, children can look at two or more turtles and observe their size differences. Point out the largest and smallest turtles and use comparative words like: *large, larger, and largest; small, smaller, and smallest; big, bigger, and biggest; little, littler, and littlest.*

### 4. Develop Creativity and Imagination

Gather all the turtles and use them as props to tell a story. You might start by introducing the turtles one-by-one giving them unique names and personalities that relate to the emotions on their faces. Then, guide the child through a simple narrative, encouraging their imagination and creativity as they interact with the turtles and you model how to create a playful story.
