

DAILY SCHEDULE

Create a DAILY SCHEDULE as a way to structure your child's day during any unexpected and extended days at home. The example schedule below should give you a sense of the types of activities and experiences that you may consider incorporating into your child's day. Then, a blank template is provided for you to fill in your own schedule. Keep in mind that a daily schedule is a way to provide some structure to the day; it should not create more stress. Feel free to mix up learning experiences with fun, playful moments throughout the day. Below are some tips and ideas to incorporate into your child's daily schedule.

Morning Check-In

It is helpful to start the day with a quick check-in to go over the day's schedule and to clear expectations for the day, so your child knows what to look forward to. Take a moment to talk about:

- What went well yesterday that you can repeat or build on?
- What didn't go so well yesterday that can be improved today?
- What do you want to do today?
- What tasks need to be completed today?

Lesson Time

There are numerous websites for independent or semi-independent learning at home. Many of them offer free or low-cost subscriptions to access lesson materials from across the subjects. Some good resources include:

- [BBC Bitesize \(https://www.bbc.co.uk/bitesize\)](https://www.bbc.co.uk/bitesize)
- [Twinkl \(https://www.twinkl.co.uk/\)](https://www.twinkl.co.uk/)
- [White Rose Maths \(https://whiterosemaths.com/homelearning/\)](https://whiterosemaths.com/homelearning/)
- [Classroom Secrets \(https://classroomsecrets.co.uk/free-home-learning-packs/\)](https://classroomsecrets.co.uk/free-home-learning-packs/)
- [LeapFrog Learning at home collection](#)

Physical Activities

It is important to integrate physical movements and activities throughout the day. For a quick break, simple games like Musical Statues and Simon Says can be played anywhere with a little bit of space. By mid-afternoon, your child may need something more involved to expend some energy. Give some of these ideas a try:

- Paper airplane race around the house (or garden)
- Juggling tricks
- Dance along to popular songs with [GoNoodle](#)
- Practice mindfulness while exercising your body with [Cosmic Kids Yoga](#)

Arts & Crafts

Arts and crafts activities are perfect for exploring new skills as a family and for your child to express themselves freely. Here are some ideas and resources that might inspire you and your child:

- [Lunch Doodles with Mo Willems!](#) features a series of videos to inspire children to draw
- [Origami for Kids](#) offers step-by-step photo instructions to fold all kinds of animal faces
- Experiment with over 40 ways to fold a paper airplane at [Fold'n'Fly](#)

EXAMPLE
