Use this book with Adventures mode!

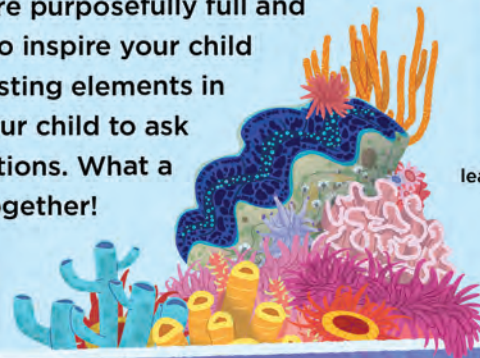

Get ready to explore exciting locations around the world with your LeapPods Max™ headphones! Follow along with the Adventure Team as they traverse the Amazon Rainforest, drive the African Savanna, and so much more! Put on your headphones, flip the page to an adventure, and go on a journey filled with unique sounds and experiences. The Adventure Team is waiting for you!

A Letter to Parents:

We created the Adventure Passport as a visual companion to the six Adventure tracks included on the LeapPods Max™ headphones. The lush illustrations reflect the animals and environments described in the tracks to help your child make the connections between what they hear and what they see. The scenes are purposefully full and complex, dense with details beyond what are described to inspire your child to take time to dig deeper and discover even more interesting elements in these scenes. In fact, some elements might even spark your child to ask questions and come up with their own ideas and imaginations. What a great opportunity to explore other resources and learn together!
