

Leo's Field Journal

Leo found a monarch caterpillar egg and wrote about its life stages in his field journal. Fold the field journal on the next page, and then help Leo complete it by cutting and pasting his drawings on the right pages.

2. The egg hatched into a caterpillar.

3. The caterpillar attached to a twig. It grew a hard covering. It was a chrysalis.

FIELD JOURNAL

1. The butterfly started out as an egg.

4. The chrysalis opened and a butterfly came out.
