

Kat's Coin Trick

Kat can make coins appear in her magic hat. Each time, a different coin appears. Ask your parent for a penny, nickel, dime, and quarter. Match each coin to its spot on the magic hat.

This large coin is called a quarter. It is worth 25 cents.

This thin, silver coin is a dime. It's worth 10 cents.

A penny is small and brown. Some people think it is "lucky." A penny is worth one cent.

This silver coin has smooth edges. It is called a nickel. It is worth five cents.
