

Winning Bin! Recycling Game

Keep these items out of the trash by sorting them into the correct bins. Who will have the winning bin? Play this game with a friend to find out!

Cut out the bin labels below and attach them to cups or containers (perhaps rescued from your recycling!). Then cut out the game cards on the following pages. (Tape or glue them to index cards to make them more sturdy.)

To Play:

Each player chooses a labeled container (if there are only 2 players, one bin stays out of the game). Mix up the game pieces and spread them out face down on a table or the floor. The youngest player goes first. On your turn, flip one game piece. If the piece belongs in your bin (Recycle, Compost, or E-Waste), put it in your container. If not, flip it back over. Players take turns until one player has found all five items for his or her bin. A full bin makes for a win!
