

# Leap Frog School™ LEAP SAM

I love to build things! Right now I'm constructing a new clubhouse for my friends. If you started a club, what would you call it?

# LEAP School™ TIG

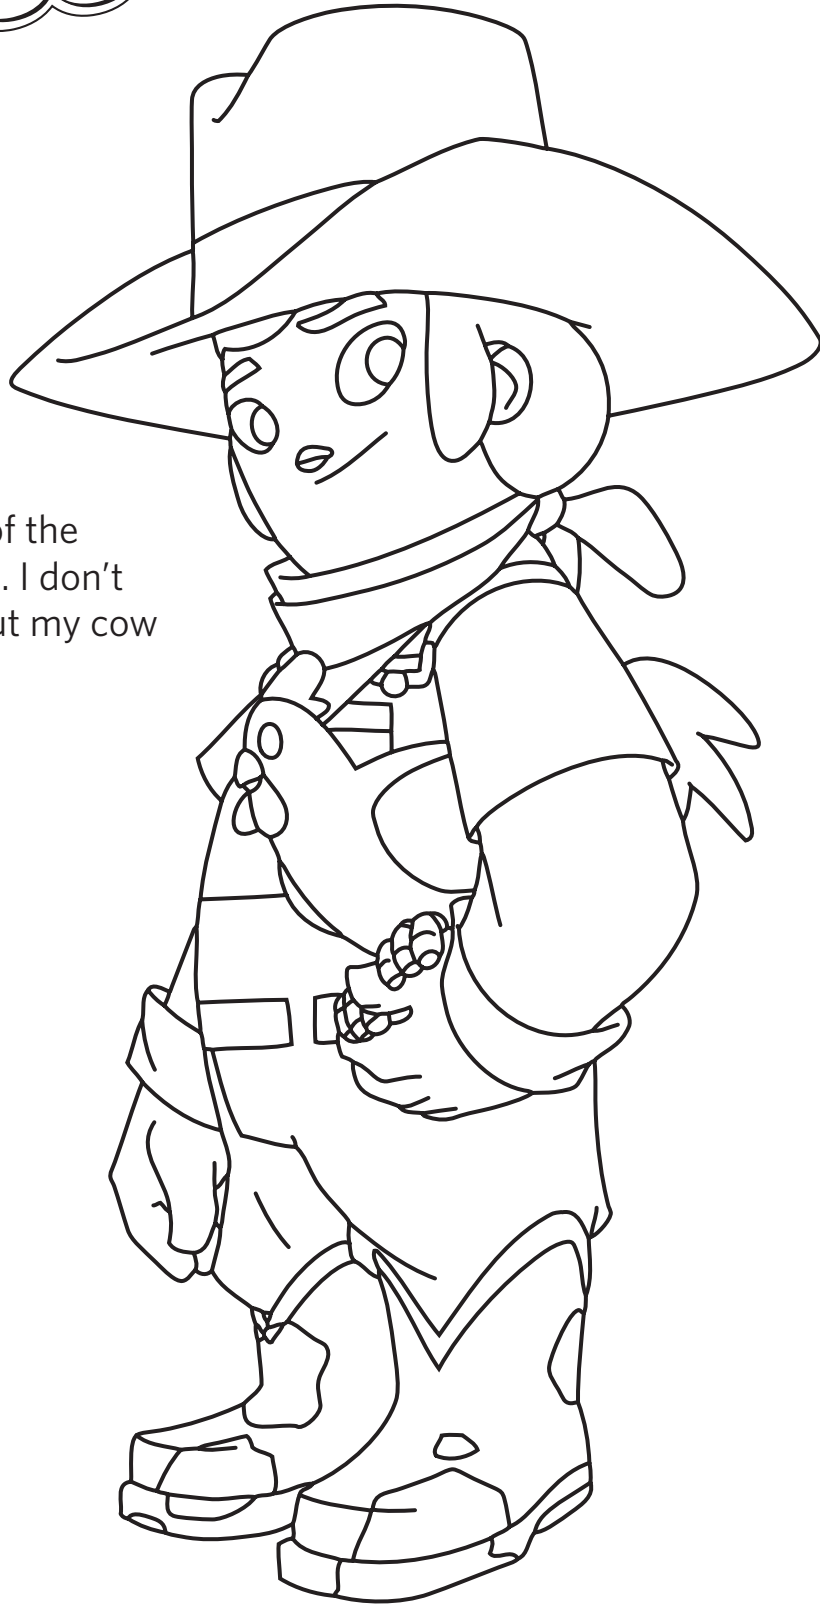

I love spending time in the LeapSchool science laboratory. Today, I'm working on a new flavor of ice cream! What should it taste like?

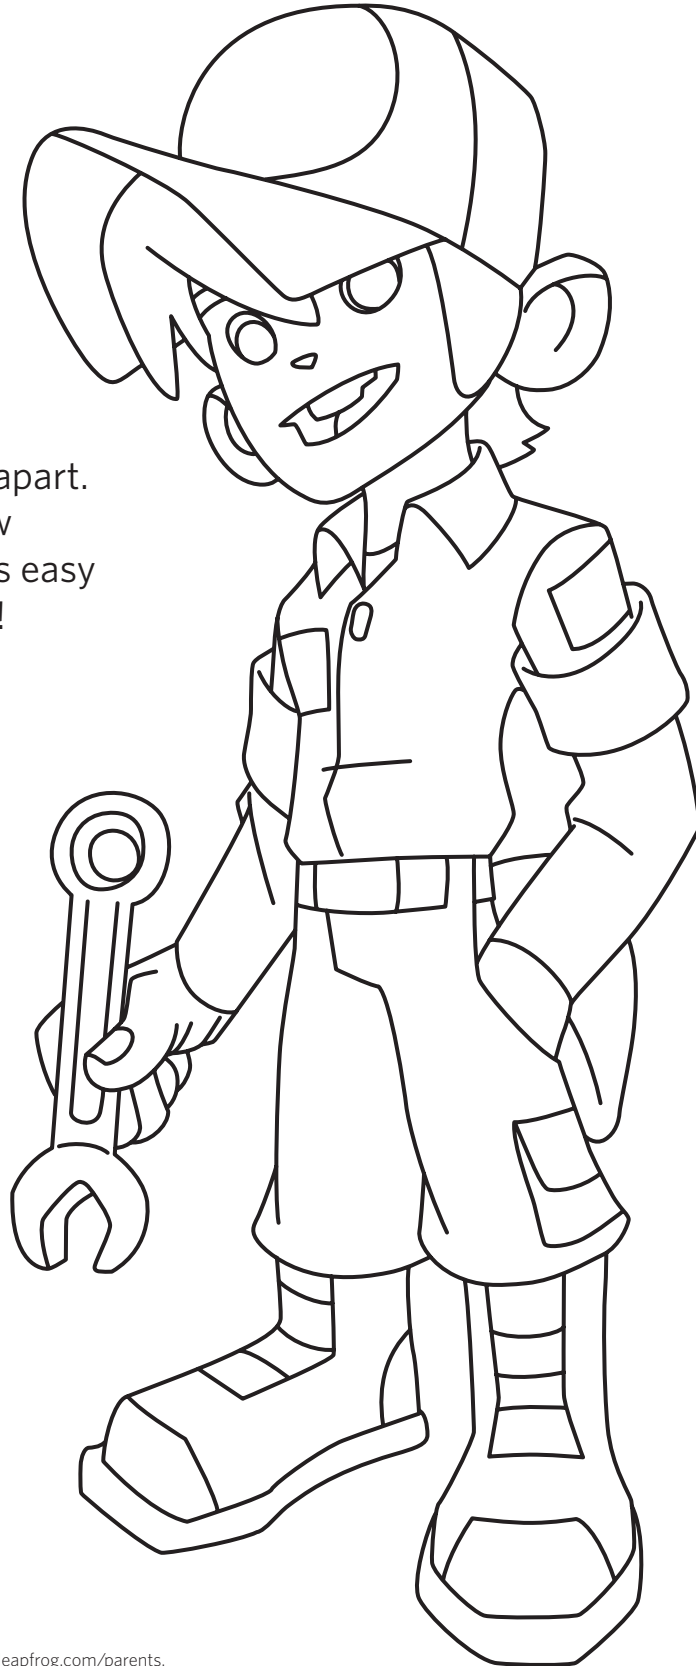

# UDO

Hi. I'm Udo. I take care of the farm here at LeapSchool. I don't know how to say this, but my cow wants to give you a kiss.

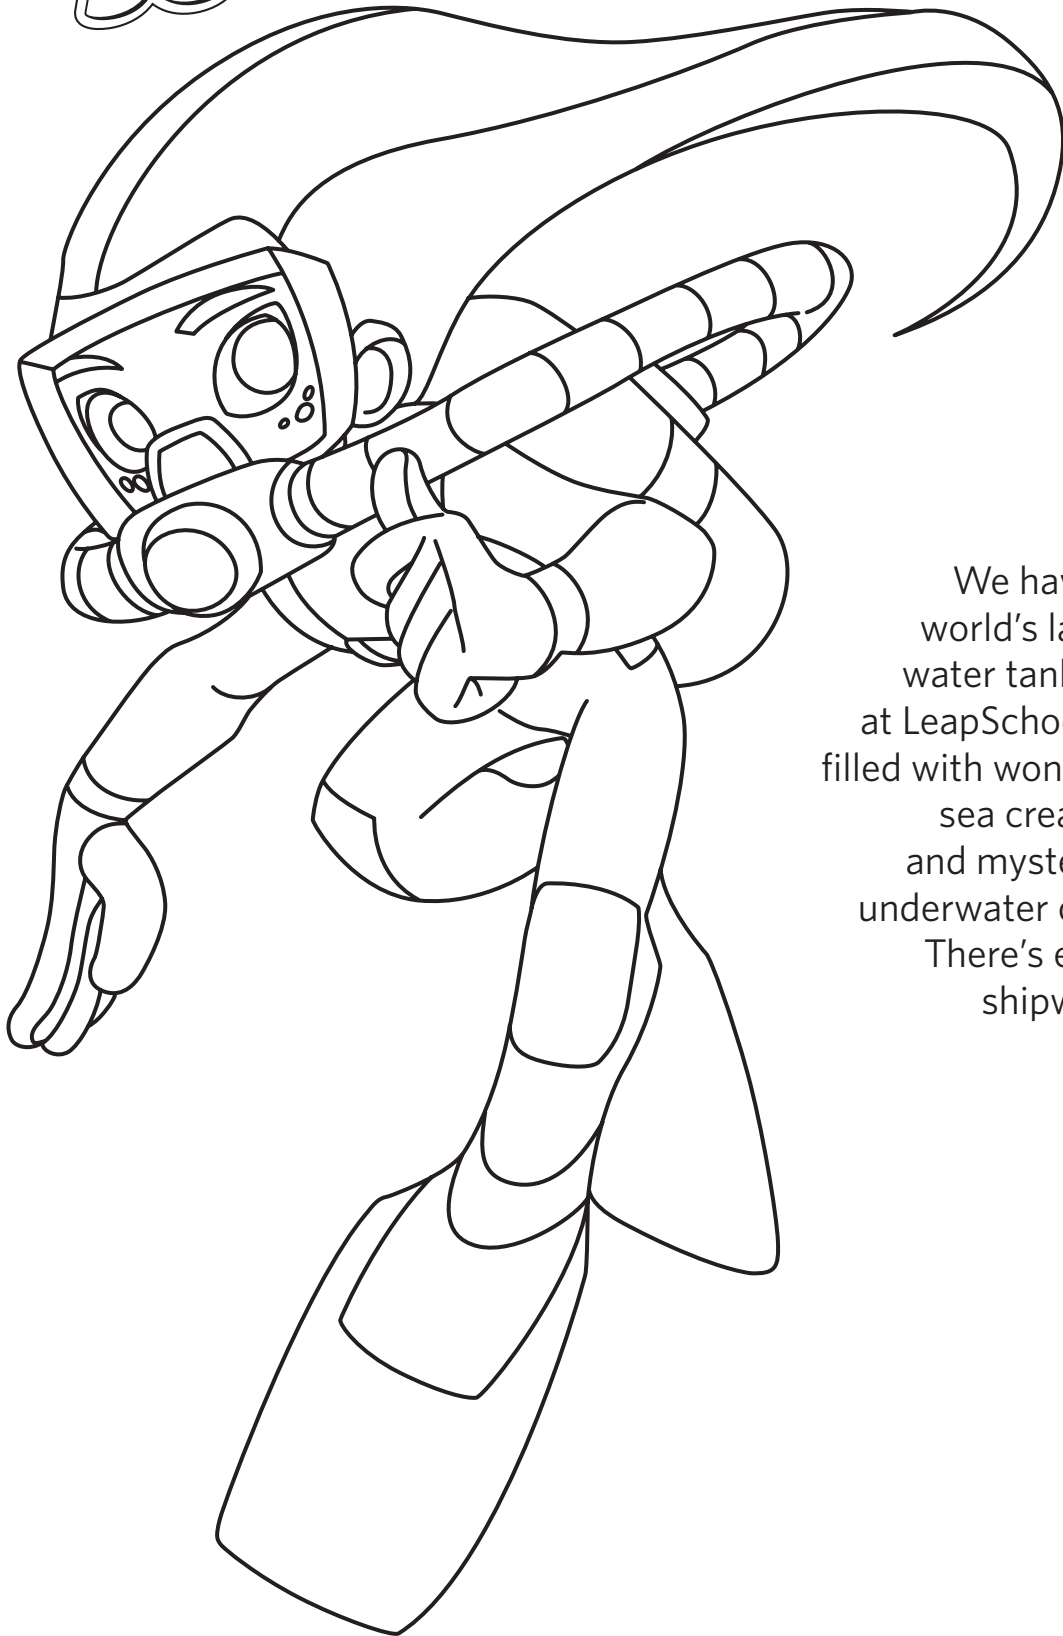

**Leap Frog** **LEAP School™** **VIA**

I love to take things apart.  
When you know how  
something works, it's easy  
to fix when it breaks!

# Leap Frog School™ LEAP WEB

We have the world's largest water tank here at LeapSchool! It's filled with wonderful sea creatures and mysterious underwater caves. There's even a shipwreck!

# Leap Frog Leap School™ X

Arrrgh! I can find just about anything, whether it be buried treasure, a runaway hamster, or lost socks. Here's a tip: the stinkier the socks are, the easier they are to find!

# YUP

I love all kinds of dance.  
Tap, Ballet, and Hip Hop.  
I've got a big dance recital  
coming up—could you help  
me design my new  
dance costume?

# LEAP School™ ZED

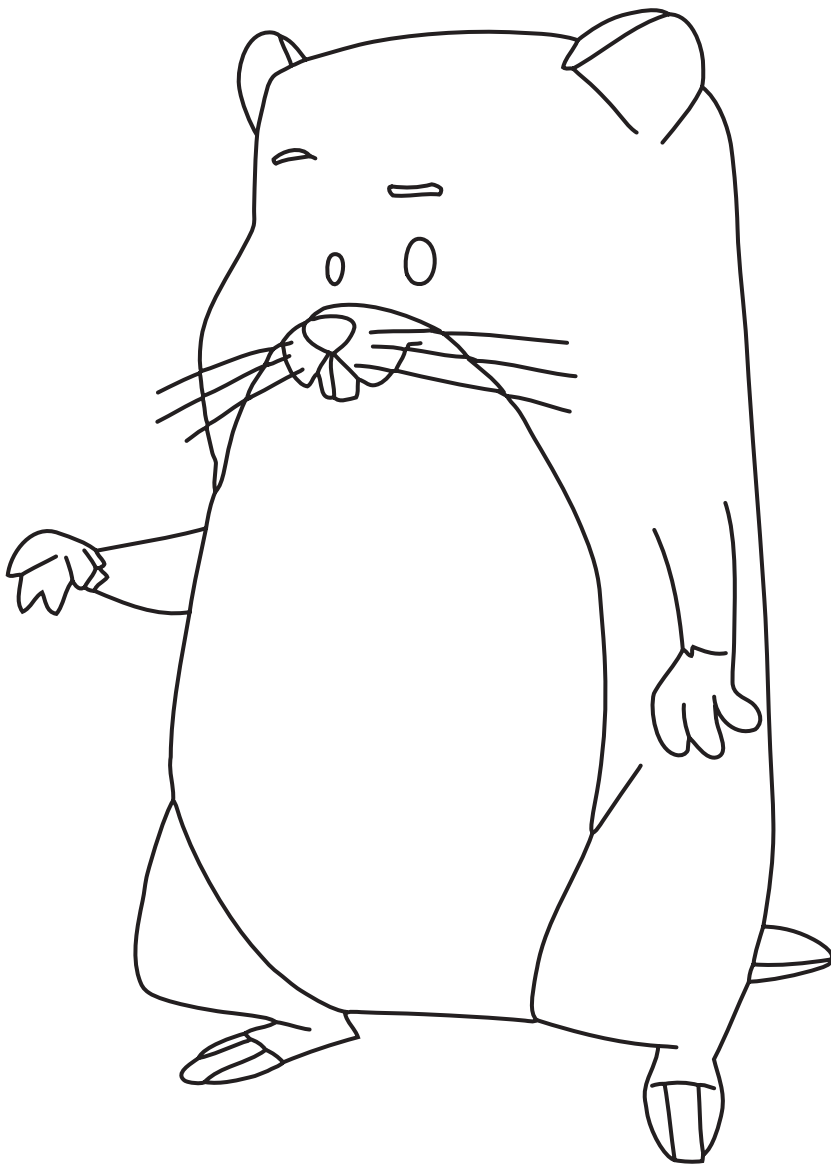

I write LeapSchool's newspaper every week. Could I interview you? First question, is it true you're a smart kid?

# GADGET & BIT

Meet Gadget and Bit,  
two hamsters who love to  
build crazy contraptions  
in their workshop.  
They are also opera singers.
