

Fit Made Fun!

On September 6, LeapFrog is hosting a very special event in Santa Monica, California. Kids from all over will try to set new records that will be included in the Guinness Book of World Records including the biggest group of swim dancers, the most sand angels ever made at once and the biggest recorded group hopping on one foot.

Can't make it to the beach? Join us anyhow! Get together with siblings, friends, or neighbors and participate in one or more of these record-breaking events. Attach your photo or draw a picture in the space.
