Instructions for Play

Building a Read-Aloud Experience

Reading a book aloud is a key moment in a child's learning development. The included DVD and books are meant to work together to help build a read-aloud experience.

The 12 SING-ALONG READ-ALONG™ videos and books empower beginning readers to discover story meaning as they make connections between the words they learn and the stories they see.

Getting Started

The DVD is meant to be viewed first. The DVD brings the 12 stories to life through lively animation and songs. The songs feature rhythm, rhyme and repetition, which can help children learn the words in the corresponding storybooks and can motivate them to read the books aloud.

DVD Play

- Insert the included DVD into your DVD player.
- The main menu screen will appear, allowing you to navigate through the 12 music videos.
- Each story begins with a fun skit that introduces basic vocabulary and vowel sounds. These skits are meant to highlight the curriculum featured in each story.

Book Play

The books are meant to be read after viewing the DVD. This helps children get comfortable with the words, increasing their motivation to read the books aloud.
